

PREP: PRMS Residents' Education Program

AN EDUCATION OPPORTUNITY FOR PSYCHIATRY RESIDENTS

PRMS® has been dedicated to serving psychiatrists for nearly 30 years, giving us a firsthand understanding of the risks psychiatrists face. Using this in-depth knowledge, we have designed PREP®, a program that educates psychiatry residents on the causes of psychiatric malpractice claims, including strategies for managing risk and improving patient care.

PROGRAM HIGHLIGHTS

- › 90-minute program delivered by experienced legal/clinical professionals that provides an overview of practice-related medical professional liability risk and strategies to manage that risk
 - Supports ACGME core competencies: system-based practice and interpersonal and communication skills
- › Can be incorporated into Grand Rounds
- › Course content can be tailored to your program's needs, such as focusing on a psychiatric sub-specialty
 - If requested, information about medical professional liability insurance can also be included (e.g. types of policies, the insurance contract and parts of the policy)

PRMS is Accredited with Commendation by the ACCME to provide CME for physicians.

PROGRAM PROVIDER

Professional Risk Management Services, Inc.® (PRMS) manages The Psychiatrists' Program®, the preeminent professional liability insurance program for psychiatrists. Because of our dedication to psychiatry for nearly 30 years, we are experts in understanding and managing risk, handling psychiatric claims and developing specialized policies to protect our clients.
