

PRMS SUMMARY OF STATE LICENSURE WAIVER INFORMATION

NOTES:

- This information is for reference purposes only.
- Not all states are waiving licensure. In those states that are, there is no uniformity - some states only waive licensure if treating patients in a facility, for example.
- Review the source documents linked below to determine the scope of the waiver.
- The information is changing frequently.
- For further information, check the applicable licensing board's website.

ALABAMA (reviewed 1/10/2021)

Effective March 23, 2020, the Board and Commission have established temporary emergency licensure processes to authorize physicians to provide health care to Alabamians suffering from and affected by SARS-CoV-2 and the disease known as COVID-19. Physicians must possess a full and unrestricted license to practice medicine in another state, the District of Columbia, a territory of the United States, or a province of Canada and meet other certain other requirements. **Temporary emergency licenses expired on November 17, 2020.** Those who wish to continue practicing in Alabama apply for permanent licensure through the Board or the Interstate Medical Licensure Compact

ALASKA (reviewed 1/10/2021)

Telemedicine: Anyone providing telehealth must hold an Alaska license. Courtesy licenses for emergency situations are offered to **physicians who come to the state** to provide emergency medical care or emergency mental health care if the patients do not pay or give a fee or other remuneration; and the services are provided as part of an organized response to a disaster emergency that the governor has declared under AS 26.23.020; and in which extensive injuries or deaths have occurred. The license is valid for 90 days and is not renewable.

standing, and working under the direction of IEMA and IDPH in response to the public health emergency declared by the Governor, are suspended. Out-of-state licensees working in Illinois pursuant to this Order must hold a license from another U.S. jurisdiction and must be in good standing. Such licensees, while working in Illinois, are subject to all provisions of the Medical Practice Act and its Rules, the Nurse Practice Act and its Rules, the Physician Assistant Practice Act and its Rules, or the Respiratory Care Practice Act and its Rules, as applicable, relating to the standards of care. **Licensees are limited to working under the direction of IEMA and IDPH pursuant to a declared disaster or in a state licensed long-term care facility, state regulated hospital, or federally qualified health center (FQHC). Licensees are limited to providing treatment in response to the COVID-19 outbreak.** Licensees must provide IDFPR with their name, contact information, state of licensure, license number, respective date of arrival, and date of departure on a form provided by IDFPR.

Source: [Illinois Department of Financial and Professional Regulation Temporary Practice Application](#)

Telemedicine: The Illinois Department of Financial and Professional Regulation interprets Executive Order 2020-9 to permit an out-of-state health care provider not licensed in Illinois to continue to provide health care services to an Illinois patient via telehealth **where there is a previously established provider/patient relationship.** The Department deems such a provider to be “authorized to practice in the State of Illinois” pursuant to Section 5 of the Executive Order without further need to obtain licensure in Illinois. This order shall remain in effect for duration of the Gubernatorial Disaster Proclamation.

INDIANA (last update 1/10/2021)

The State of Indiana has created a registry of individuals who do not hold a valid license to practice in Indiana but can be mobilized to help fight COVID-19 by issuing temporary permits to practice. Any individual who utilizes the registry may work until the public health

emergency as defined by Governor Holcomb through Executive Order is over. **The public health emergency is currently set to expire on January 30, 2021.** Once the emergency is over, their license will expire and all existing application procedures must be followed such as taking the appropriate licensure exam and passing a criminal background check. This registry will be open to:

- Out-of-state healthcare practitioners;

MICHIGAN (last update 1/10/2021)

Per MCL 333.16171, an individual who by education, training, or experience substantially meets the requirements of this article for licensure while rendering medical care in a time of disaster or to an ill or injured individual at the scene of an emergency is not required to have a license issued in this state. "An individual who by education, training, or experience substantially meets the requirements of this article" includes, but is not limited to, individuals who are properly licensed in another state, country (i.e. Canada) or are recently retired from the profession in Michigan. In a "time of disaster" may include an individual event (such as a car accident) but it may also include larger scale "natural" or "manmade" disasters. These include, but are not limited to, events that are declared an "Emergency" or a "State of Emergency" by the proper authority (even after the event happened). In "rendering medical care" the individual should only render that care if they have the proper "education, training or experience" to perform that care. **The exemption does NOT allow unlicensed individuals to prescribe Controlled Substances during a disaster.**

NOTE: Michigan's State of Emergency officially ended on October 27 and was not renewed. However, Michigan's Bureau of Public Licensing put out the following document on November 10, suggesting that the licensure exemptions may still be in effect. If you are contemplating treating Michigan patients, we recommend you contact the licensing board directly.

As directed by **Executive Order 2020-05.1** and as part of our response to the coronavirus (COVID-19) pandemic, licensing requirements have been suspended for health care and behavioral health professionals currently licensed and in good standing in other states. Interested health care and behavioral health professionals must complete the online application which includes proof of identity, proof of licensure and a letter of good standing in another state. Once submitted, the application will be reviewed for temporary emergency licensure.

PENNSYLVANIA (last update 1/10/2021)

General: Governor suspended certain administrative requirements allowing the granting of temporary licenses on an expedited basis. **This Order is to remain in effect for the duration of the state of emergency currently set to expire on February 22, 2021.**

Source: [Temporary Licenses Out-of-State Practitioners Overview](#)
[Temporary License Application MD](#)
[PA Med Society Article Licensure of Out-of-State Physicians](#)

Telemedicine: Administration granted a temporary suspension of the requirement for out-of-state practitioners to be licensed in Pennsylvania to practice telemedicine so long as they are licensed in good standing in their home state, territory or country by the equivalent of the Pennsylvania State Boards of Chiropractic, Dentistry, Medicine, Nursing and Nursing Home Administrators, Occupational Therapy, Optometry, Osteopathic Medicine, Pharmacy, Physical Therapy, Podiatry, Psychology, Social Work, Speech-Language Pathology and Audiology, and Veterinary Medicine. Out of state practitioners must provide the

Pennsylvania board from whom they would normally seek licensure with the following information prior to practicing telemedicine with Pennsylvanians: 1) their full name, home or work mailing address; and 2) their license type, license number or other identifying information that is unique to that practitioner's license, and the state or other government body that issued the license. **This Order is to remain in effect for the Pennsylvania state of emergency currently set to expire on February 22, 2021.**

RHODE ISLAND (reviewed 1/10/2021)

Currently emergency reciprocal licensing is not available for physicians.

If you are providing telehealth services to a patient who lives in Rhode Island and you wish to continue providing treatment you must apply for a full Rhode Island license or the patient must obtain treatment from a provider who holds an active Rhode Island license.

SOUTH CAROLINA (last update 1/10/2021)

During the state of emergency South Carolina will issue “emergency” medical licenses to out-of-state physicians to combat the COVID-19 pandemic. The state medical board can expedite temporary licensure for out-of-state physicians, physician assistants and respiratory care practitioners within 24 hours. There is no fee for these 90-day temporary licenses. **The state of emergency is currently due to expire on January 22, 2021.**

TEXAS (last update 1/10/2021)

Out-of-state physicians are permitted to obtain a Texas limited emergency license or hospital-to-hospital credentialing for no more than 30 days from the date the physician is licensed or until the disaster declaration has been withdrawn or ended whichever is later.

The Texas state of emergency is currently set to expire on February 4, 2021. (Note Governor's renewal of emergency declaration of January 5, 2021 did not specify a specific end date only that he was renewing it as he had each previous month.) Physician

must hold a full, unlimited and unrestricted license to practice in another U.S. state, territory, or district provided a Texas sponsoring physician must complete a limited emergency license application and the board must verify the physician's licensure.

VERMONT (reviewed 1/10/2021)

General: The legislature passed emergency legislation that was signed by Governor Scott on March 30, 2020 that allows individuals who hold an out-of-state license to practice in Vermont without a Vermont license. If you are providing services to Vermonters in a licensed facility you do need to provide your contact information to the Office of Professional Regulation. Holders of full licenses in other states who plan to practice in

Vermont and who will not limit their practice exclusively to telemedicine or practice on the staff of a licensed facility may apply for an emergency license. **Valid until March 31, 2021.**

Telemedicine: If you are providing only telehealth to people in Vermont you do not need a license and you do not have to provide your contact information to the Office of Professional Regulation. **Valid until March 31, 2021.**

VIRGINIA (reviewed 1/10/2021)

General: Expedited Licensure. During the declared coronavirus emergency in Virginia, the board of medicine is streamlining **its licensing process for the following professions: medicine and surgery, osteopathic medicine and surgery, physician assistant, podiatry, and respiratory therapy. A license issued to a health care practitioner by another state, and in good standing with such state, shall be deemed to be an active license issued by the Commonwealth to provide health care or professional services as a health care practitioner of the same type for which such license is issued in another state, provided such health care practitioner is engaged by a hospital, licensed nursing facility, or dialysis facility in the Commonwealth for the purpose of assisting that facility with public health and medical disaster response operations.**

WASHINGTON (reviewed 1/10/2021)

General: Out-of-state practitioners may become volunteers by registering and completing an application.

Source: [Dept. of Health Emergency Volunteers](#)

Telemedicine: Existing state law [RCW 18.71.030\(6\)](#) allows a practitioner not licensed in Washington to provide medical care to a patient in Washington State if certain conditions are met:

1. The non-Washington-licensed practitioner is licensed in another state or US territory where he or she resides;
2. The non-Washington-licensed practitioner has **an established patient-practitioner relationship** with the patient and provides follow-up care to treatment previously performed in the practitioner's state of licensure;
3. The **continuous or follow-up care is infrequent or episodic**; and
4. The non-Washington-licensed practitioner does not set up an office or place of meeting patients in Washington.

with the Board. This rule creates an emergency registration process for the following providers who want to provide medical care in West Virginia under special provisions during the period of the declared emergency:

1. physicians who hold unrestricted licensure in another state;
2. physician assistants who hold unrestricted licensure in another state;
3. certain inactive or expired status West Virginia physicians; and
4. certain expired status West Virginia physician assistants.

Registrants may practice medicine in West Virginia consistent with their scope of practice and the standard of care, and may practice in person or via telemedicine technologies to West Virginia patients. Registered physician assistants must practice in collaboration with physicians pursuant to a Practice Agreement or Practice Notification.

WYOMING (last update 1/10/2021)

General: Physicians and PAs not licensed in Wyoming *may* qualify to work there during the declared public health emergency through the "consultation exemption." The exemption is not automatic and requires Board approval.

The content of this article ("Content") is for informational purposes only. The Content is not intended to be a substitute for professional legal advice or judgment, or for other professional advice. Telemedicine: If you have an **existing physician-patient relationship** established in a face-to-face encounter in your state, and the patient is not able to travel to your state now due to the Public Health Emergency, you may continue that patient's care via telehealth, including telephone, without a Wyoming physician license. This includes following up on procedures performed in your home state, adjusting medication dosing, prescription refills, ordering diagnostic testing, etc. The telehealth technology must allow you to meet the standard of care at all times. **You may not, however, provide care that treats a new diagnosis or condition without a Wyoming physician license if you have not seen the patient for it in a face-to-face encounter in your home state.** You also may not provide care beyond such a time as the standard of care dictates that a face-to-face encounter should occur.

If you have been approved under the consultation exemption, may initiate a treatment relationship with a new patient under that exemption.
